

Eureka

Installation Contactors

Product Description & Specifications:

The Eureka range of installation contactors are ideal for mounting in load centres and distribution boards as they have the same profile as an MCB.

They help with the operation of emergency lighting circuits and lighting control via a time clock.

The Eureka range of installation contactors have many features -

- Din rail mounted
- Amp ratings of 25, 40 and 63A
- 240VAC and 24VAC coil operation
- Choice of main contact configurations
- AC1 and AC3 rated
- 2 and 4 pole

Part No.	Rated Current AMPS (AC1)	Rated Current AMPS (AC3)	Coil Voltage	No. Of Contacts	Modules 18mm
