

Eureka

Emergency Test Kits

Product Description & Specifications:

- The Eureka range of emergency test units help in the testing of emergency lighting luminaires.
- These tests are a mandatory procedure that must be performed on a regular basis in a commercial installation.
- The unit helps with the testing of emergency luminaires without turning the power of lighting circuits.
- The units come either in an enclosed version or in a din mount version ready for installation into a distribution board and are din mounted.
- All units come complete with 1 module timing relay, 2 module installation contactor, a 2 pole key operated switch and a 2 pole reset button
- They perform a 2 hour discharge with a manual reset to override the test.
- All units come completely wired and ready for installation.
- Compact design of 130 x 120 x 80mm.

Part no.	Description
